Documents and spreadsheets that read your live business data

Collaborative documents and spreadsheets, stored on Drive and shared through your organization. The difference is that a sheet can pull live figures from your stock and your accounts.

Family	Rutba Workspace
Category	Online documents & spreadsheet software
Status	Early access
Apps included	2
From	\$2 per user / month
Requires	Rutba Drive
Works with	Rutba Books, Rutba Inventory
Buy or trial	rutba.io/suites/docs

THE PROBLEM

Why it exists

Every business runs on spreadsheets that were accurate the day someone exported them. Rutba Sheets binds cells to live data (stock on hand, your price list, receivables by age), so the report is current every time it is opened, not every time someone remembers to refresh it.

FIT

Who it is for

- Teams collaborating on documents and reports
- Finance and ops people living in spreadsheets
- Businesses wanting live figures instead of stale exports

APPS IN THIS PRODUCT

What you get

Docs & Sheets

The editors: documents and spreadsheets, edited together in real time, with a ribbon over both.

Workspace service

The document engine: format fidelity, co-editing sessions, and the live data bindings into your business records.

WHAT IT DOES

Capabilities

- Word processor and spreadsheet, edited together in real time
- Opens and saves .docx and .xlsx on our own engine, with no round-trip loss
- 145 spreadsheet functions with dependency-ordered recalculation
- Live data bindings: cells that read stock levels, your price list and receivables ageing
- Charts including scatter, and a PivotChart added with a new pivot
- Charts, shapes and pictures moved, resized and deleted by hand, on the sheet and on the page
- Pictures in PNG, JPEG, GIF, BMP or WebP, and PDF export
- Documents are ordinary Drive files, so sharing follows organization roles
- Try the editor with no account at all (see the sandbox link below)

Prices are in US dollars and exclude local taxes. Every plan is billed through rutba.io/suites/docs. Annual and multi-product pricing is available on request.

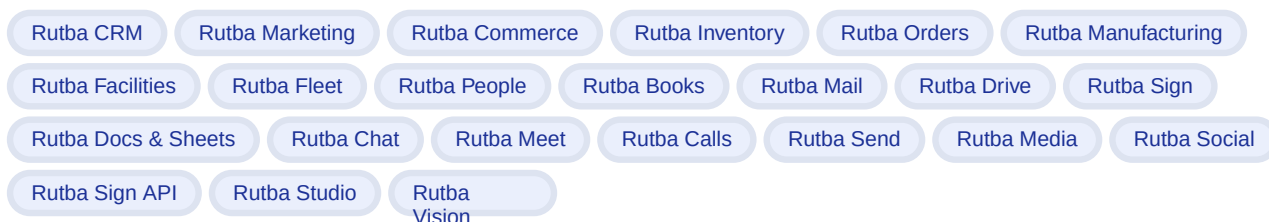

Worth knowing

Early access is the honest label for a product you can already use: both editors, real-time co-editing, and a public sandbox that needs no account. What is still landing is the standalone Drive interface documents are stored in. Today that storage is reached through Workspace itself.

RUTBA SUITE

How it fits the rest of the suite

Rutba Suite is 23 products in three lines (the business suite, the workspace and the platform services underneath), sharing one customer list and one set of books. Buy the one you need today and add the rest later without a migration.
