Document	Rutba Inventory datasheet
Generated	16 October 2026
Online	https://www.tech-style.co/docs/rutba-inventory-datasheet

One stock number everyone can trust

Stock levels, multi-location transfers, stocktakes, and valuation: the single source of truth every other part of the business reserves and deducts against.

Family	Rutba Suite
Category	Inventory management & warehouse (WMS) software
Status	Available
Apps included	3
From	\$10 per organisation / month
Works with	Rutba Commerce, Rutba Orders, Rutba Manufacturing, Rutba Books
Buy or trial	rutba.io/suites/inventory

THE PROBLEM

Why it exists

Stock is the number a business argues about most, and the argument always starts with two systems keeping their own copy. Rutba Inventory owns it outright: the till, the storefront, the order desk, and the factory floor all read and reserve through it, so there is only ever one answer.

FIT

Who it is for

- Distributors and wholesalers
- Retailers with stockrooms and multiple locations
- Manufacturers tracking raw materials and finished goods

APPS IN THIS PRODUCT

What you get

Stock

Products and the taxonomy that describes them, purchase orders, and the individual physical units that come off a delivery. It is the buying-and-cataloguing half of the group.

Warehouse Control

Warehouses and bins, per-location stock levels, the paperwork that moves stock between them, counts and reordering. It is the warehouse half of the group.

Procurement

Requisitions and approvals, sourcing and RFQs, supplier qualification, contracts and price lists, purchase orders, receipts and three-way matching, and a spend view.

WHAT IT DOES

Capabilities

- Live stock across unlimited locations and bins
- Transfers with in-transit visibility
- Scheduled and rolling stocktakes with variance reporting
- Stock valuation that posts straight to your accounts
- Reorder points and low-stock alerts, and a branch refilled by transfer from the reorder page
- Divisible products reordered on the sub-units left, not the rolls counted
- Expired units refused at the till, and a count's shortages posted as adjustments
- Purchase orders, price lists and spend by supplier, category and buyer, with contract compliance
- Planned buys firmed into requisitions, and a posted bill releasing its budget commitment
- A quality scorecard on every supplier's page

COMMERCIAL

Plans and pricing

PLAN		
	PRICE	INCLUDES
Free	Free	Up to 50 orders a month; 1 location; Stock levels & movements; Reorder alerts
Starter	\$10 per organisation / month	Up to 1,000 orders a month; Up to 2 locations; Stock levels & movements; Reorder alerts; Basic stocktake

Enterprise	Custom annual contract	Unlimited throughput; Custom valuation methods (on request); WMS integrations; Dedicated support

Prices are in US dollars and exclude local taxes. Every plan is billed through rutba.io/suites/inventory. Annual and multi-product pricing is available on request.

RUTBA SUITE

How it fits the rest of the suite

Rutba Suite is 23 products in three lines (the business suite, the workspace and the platform services underneath), sharing one customer list and one set of books. Buy the one you need today and add the rest later without a migration.
