Email at your own domain, that files itself

Real hosted mailboxes at your own domain (inbound delivery, storage, IMAP, and a web client), where every message can attach itself to the customer or order it concerns.

Family	Rutba Workspace
Category	Business email hosting
Status	Early access
Apps included	2
From	\$1.50 per mailbox / month
Works with	Rutba CRM, Rutba Send, Rutba Drive
Buy or trial	rutba.io/suites/mail

THE PROBLEM

Why it exists

Every business email tool gives you an inbox at your domain. Rutba Mail gives you one that knows your business: a message can be filed against the customer, contact or order it concerns in a click, not a copy-paste into another system, and recipient suggestions include your CRM contacts.

FIT

Who it is for

- Businesses moving off free consumer email
- Teams who want mail and CRM to share a customer record
- Anyone consolidating email hosting with the rest of their software

APPS IN THIS PRODUCT

What you get

Webmail

The web client: inbox, search, folders, shared inboxes, meeting invitations shown as cards, and each message filed against the record it concerns.

Mail Gateway

The mailbox service: inbound delivery, storage, and IMAP access from any mail app.

WHAT IT DOES

Capabilities

- Mailboxes at your own domain (@yourcompany.com)
- Web client, plus IMAP for Outlook, Apple Mail, or your phone
- Spam filtering and inbound delivery handled for you
- Messages filed against the customer, contact, or order they concern
- Every recipient checked against the shared suppression list before sending
- Outlook and Thunderbird set themselves up from the address
- Your domain's MX, SPF and DKIM records checked before it goes live

RUTBA SUITE

How it fits the rest of the suite

Rutba Suite is 23 products in three lines (the business suite, the workspace and the platform services underneath), sharing one customer list and one set of books. Buy the one you need today and add the rest later without a migration.
